Software Skills

- Java, Python, C# and .NET Core
- GIT and GITHUB
- Azure cloud (Cloud)
- HTML, CSS and JS (Frontend)
- Bootstrap, Tailwind, React, Angular (Frontend)
- Artificial intelligence Apis
- SQL, MySQL, PI-SQL (Databases)
- Figma (Design)
- Illustrator (Design)
- Scrum methodology

Soft Skills

- Communication
- Teamwork
- Flexibility
- Problem-solving
- Critical Thinking
- Time Management
- Creativity
- Learning Ability
- Empathy
- Adaptability

Education

2012 - 2021

Colegio Técnico Profesional de Ulloa: I obtained a technical degree in digital design and development. I learned to use tools such as Illustrator and Photoshop, and also gained knowledge of programming fundamentals, mainly focused on web development and object-oriented programming

2021 - 2024

Universidad Cenfotec: I am about to obtain a Bachelor's degree in Software Engineering, and I will finish the program this year. I have acquired most of my knowledge, both soft skills and hard skills, learning the specified tools listed on the left-hand section.

Experience

May - November
2020

INA internship: It was my first work experience where I supported the team with the analysis and improvement of web pages, also creating various designs to enhance their aesthetics. I contributed to the creation of logos and banners. During the last 4 months, I was working on my first 'formal' website for a specific group within the company

2023 - 2024

APPLICA: I held the position of digital developer and designer. My main focus was on the maintenance and improvement of websites, as well as troubleshooting on the Odoo platform where I worked with Frontend and Backend I also supported the creation of mockups for web pages, thus being involved in both design and development aspects within the company.
